Inland Empire Ski & Sport Club

The Inland Empire Ski & Sport Club (IESSC) is a non-profit organization that has been in existence for over twenty-five years serving under-represented youth in the Inland Empire community. The primary purpose and goal of IESSC is to identify, develop and to provide scholarship funds directed for training of future African-American winter Olympians while educating them on the geographical areas of mountain landscapes. All training scholarship funds are provided through sponsorships and donations, such as local fundraisers, i.e., bowl-a-thon, golf tournaments, banquets, etc. Some non-winter programs include: IESSC-sponsored career day, Building Essential Skills and Talent (BEST) programs, camping and other social and cultural awareness activities.

IESSC is part of the national organization – the National Brotherhood of Skiers (NBS). The NBS is comprised of over seventy-five prominently African American ski clubs with over 15,000 employees throughout the United States.

Music Changing Lives

Music Changing Lives (MCL), a California non-profit organization, located in the Redlands Community Center, we facilitate a fully equipped, state-of-the-art, recording studio utilized to teach our youth the basics of recording and producing quality music. MCL's mission is to assist at-risk youth in connecting with the essence of life with the goal of helping our youth build a better tomorrow.

Programs:

- ***No more Excuses*** – MCL's model focuses on students who typically had poor or sporadic school attendance and low academic performance in their previous education history.
- ***The Ignorance Stops Here*** – Is a school tour designed to help reduce our communities dropout rates, and take high school students around to various colleges throughout California to show them that there is more to life than just their neighborhood.
- ***Planning on Success*** – MCL holds several corporate fund raising events and community weekends and holiday events to assist children with school supplies as well as toy drives for the local residents.
